

SunSound Audio Post

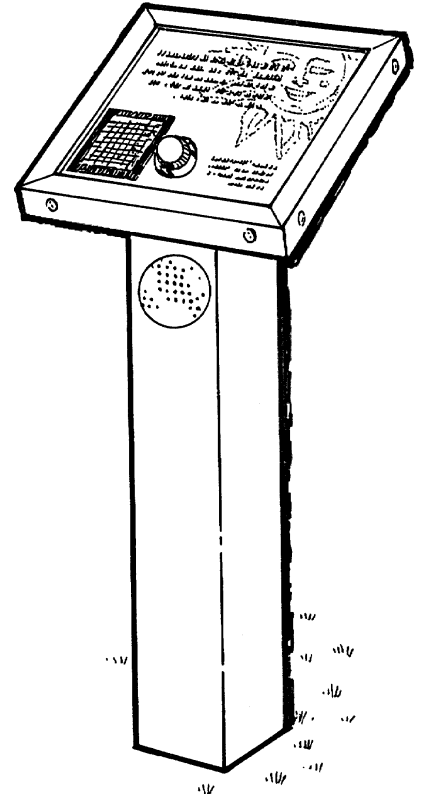

The solar-powered, digital audio post from Interpretive Exhibits

Complete, Cost-Effective Solution

Interpretive Exhibits offers a completely self-contained audio post system for use in any exterior location. Now you can provide for your visitors with an enhanced interpretive experience, and meet ADA guidelines.

- Durable steel construction, finished to endure the harshest conditions.
- Digital message repeater system with no moving parts.
- Internal, long-life battery continuously recharged by the solar cell giving on-going, maintenance-free performance.
- The solar cell and graphics are embedded in fiberglass for exterior durability.
- Several message lengths to choose from.

Complete digital audio production and voice talents available from Interpretive Exhibits.
